

July 26, 1938

Mr. Francis Lyman
Boulder, Utah

Dear Sir: REL: BOULDER CREEK DISTRIBUTION

This will acknowledge receipt of your letter of July 23, 1938, and your blueprint of a map which you state was prepared by Mr. John H. Clark of Panguitch, Utah, for the Boulder Irrigation and Reservoir Co., showing proposed reservoirs, existing and proposed canals, and lands to be irrigated.

I have examined carefully our files pertaining to Applications Nos. 11103, 11104, 11105, and 11106, but do not find a blueprint of this map. I am, however, writing Mr. Clark at Panguitch, asking that he furnish me two prints of the map, in order that they may be attached to your Water Commissioner's report for 1937.

Under separate cover, I am forwarding to you your blueprint. I wish to assure you that I appreciate the assistance you have given in securing a map to accompany your report.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
